# 1 INTRODUCTION

Infraco recognise the urgent need to address climate change by actively managing and reducing our carbon emissions. This Carbon Management Policy outlines our commitment to sustainability and outlines the strategies we will employ to reduce our carbon footprint.

## 2 COMMITMENT TO CARBON REDUCTION

Infraco is committed to:

- Achieving measurable and continuous reductions in our carbon emissions.
- Promoting carbon neutrality or net-zero emissions by 2025.
- Engaging employees, suppliers, and stakeholders in our carbon reduction efforts.

## 3 EMISSION REDUCTION TARGETS

We will set specific, science-based carbon emission reduction targets that align with our commitment to global climate goals. These targets will be periodically reviewed and updated as necessary to remain ambitious and relevant.

## 4 CARBON MANAGEMENT STRATEGIES

Infraco will employ the following strategies to manage and reduce carbon emissions:

### a. Energy Efficiency

- Implement energy-efficient technologies and practices across our operations.
- Conduct regular energy audits and assessments to identify and address inefficiencies.

### b. Sustainable Transportation

- Promote the use of low-emission and electric vehicles.
- Encourage public transportation, carpooling, and telecommuting.
- Establish incentives for employees to reduce commute-related emissions.

### c. Supply Chain Management

- Collaborate with suppliers to reduce the carbon footprint of our products and services.
- Preferentially select suppliers with strong environmental commitments.
- Encourage sustainable sourcing and responsible procurement practices.

#### **d. Waste Reduction and Recycling**

- Minimize waste generation through recycling, reuse, and reduction initiatives.
- Implement waste diversion programs to reduce the environmental impact of waste disposal.

#### **e. Employee Engagement**

- Educate and engage employees in carbon reduction efforts.
- Encourage employee suggestions and participation in sustainability initiatives.

#### **f. Carbon Offsetting and Removal**

- Invest in carbon offset projects or technologies to balance our emissions.
- Explore carbon capture and storage (CCS) solutions where applicable.

#### **g. Reporting and Transparency**

- Regularly monitor and report on our carbon emissions, progress towards targets, and sustainability initiatives.
- Share our carbon management performance with all relevant stakeholders.

### **5 COMPLIANCE ACCOUNTABILITY**

All employees and stakeholders are expected to comply with this Carbon Management Policy. Infraco will establish mechanisms for accountability, and violations will be addressed in accordance with our established procedures.

### **6 REVIEW AND REVISION**

This Carbon Management Policy will be periodically reviewed and updated to reflect changing circumstances, evolving best practices, and new technologies.

### **7 CONCLUSION**

Infraco is dedicated to taking meaningful action to combat climate change and reduce our carbon footprint. Through the implementation of this Carbon Management Policy, we will contribute to a more sustainable and environmentally responsible future.

This policy will serve as a guiding document for our organization's carbon management efforts, and all employees and stakeholders are encouraged to support and contribute to its success.
